

intelektualnog rada svoje ustanove, aktivno sudjeluju u nastavi na sveučilištima, bilo kao suradnici u nastavi, bilo kao samostalni predavači. No bez prave potpore ustanova i nadležnog Ministarstva napredak je prespor, knjižnice ne ispunjavaju zadatke koje bi mogle, a rezultati ne zadovoljavaju potrebe korisnika niti potiču razvoj ustanova. Nastojeći uhvatiti korak sa svijetom i ostvariti potrebno partnerstvo sa srodnim ustanovama, hrvatske se knjižnice sve više uključuju kao suradnici u projekte Europske komisije (OpenAIRE plus na Institutu Ruđer Bošković, SERSCIDA na Filozofskom fakultetu u Zagrebu i dr.), a u sve većoj mjeri predlažu i vlastite projekte, kako bi nezavisnim izvorima financiranja osigurale razvoj u skladu sa svjetskim trendovima te pokrenule vlastite istraživačke aktivnosti.

Hoće li im u budućem razvoju pomoći nedavna preporuka Ministarstva znanosti, obrazovanja i sporta upravama sveučilišta da se knjižnice s ciljem racionalizacije troškova objedine s "administrativnim, računovodstvenim, informatičkim službama, službama održavanja i čišćenja"? Ne umanjujući značaj i važnost svake navedene službe, čini nam se da od ovakvog objedinjavanja u "zajedničke službe" ne može nitko imati koristi, ponajmanje sveučilišta, i da se vraćamo u vremena za koja smo vjerovali da su iza nas.

Hrvatske visokoškolske i znanstvene knjižnice imaju kronični manjak zaposlenika, pa u fakultetskim knjižnicama nerijetko radi jedna osoba. "Racionalizacija" može jedino značiti ukidanje određenog broja knjižnica. A to znači: ukinuti knjižnicu kao mjesto učenja, kao intelektualno središte, kao susretno, kao zajedništvo, kao sposobnost i vještinu upravljanja informacijama i znanjem. Knjižnice na sveučilištima neizostavno su dijelom njihovoga znanstvenoga i obrazovnoga djelovanja. One su "zajednička služba" onih koji uče i onih koji istražuju i poučavaju.

"Upon entering the library, the student becomes part of a larger community – a community that endows one with a greater sense of self and higher purpose. Students inform us that they want their library to "feel bigger than they are." They want to be part of the richness of the tradition of scholarship as well as its expectation of the future. They want to experience a sense of inspiration."<sup>8</sup>
